

Hook-and-loop tape, slip-resistant

Product information

The KKR-Fix hook-and-loop tapes are used for the quick and easy fastening of our flexible holder systems, as well as for bundling and fixing of cable strands. Applications range from their use in robotics throughout mechanical engineering and on to house installations.

The back side of the hook-and-loop tape has been specially siliconized. This ensures a tight and slip-resistant grip of the tape on almost any surface. These special properties of the KKR-Fix makes it quite a gentle solution for low torque fastening of cables.

Advantages:

- tool-free installation
- secure hold without slipping
- no restriction of sensitive cables
- no risk of damage due to sharp edges

Material properties

Coated with anti-slip layer Polypropylene (PP) Polypropylene (PP)
mod. polyamide PA 6

Thermal properties

Temperature / temperature range
-30 °C - 100 °C / short term: 150 °C

Approvals and operating permits

ROBI approval

Classification

ETIM 9: EC010969
ECLASS 14: 23120602
UNSPSC 26.0801: 11162114
