

Flat ribbon lug type FBK

Product information

The steering components in today's machine, plant and control cabinet installations are becoming more and more complex.
A good EMC concept therefore gains increasing importance.
murrplastik earthing and cable shielding products are designed to meet the demands for low bleeder resistance at high frequencies.
murrplastik products are characterized by their very easy handling.

The flat ribbon lug allows the length of the flat ribbon to be selected individually
Excellent discharge of high-frequency noise current.
Very small transient resistance
