

Discharge bracket type AB

Product information

The AB-EMV discharge bracket is made of stainless steel 1.4301 (V2A) or galvanized steel. It is suitable in conjunction with all cable entry plates - and is available in sizes 24 and 16 for attaching EMC clips for busbars 10x3mm so that interference currents can be discharged. The discharge plate is installed on the inside of the control cabinet, directly with the fastening screws of the KDP / KDL. The special advantages of the AB-EMV discharge plate are:

- Easy assembly
- Compact design
- RoHS compliant
