Business areas

Building on the development of the first computer-assisted labeling system and our decades of experience in the field of intelligent cable management, murrplastik® offers not only individual solutions but also complete cable management solutions - everything from one source.

In close cooperation with our experts, we will find the optimum solution for you and your requirements. Comprehensive consulting is just as much a part of our service portfolio as the rapid implementation, maintenance and support of the systems in case of a service issue.

That is how we can ensure the basis for the modern, future-proof, progressive growth of your company.

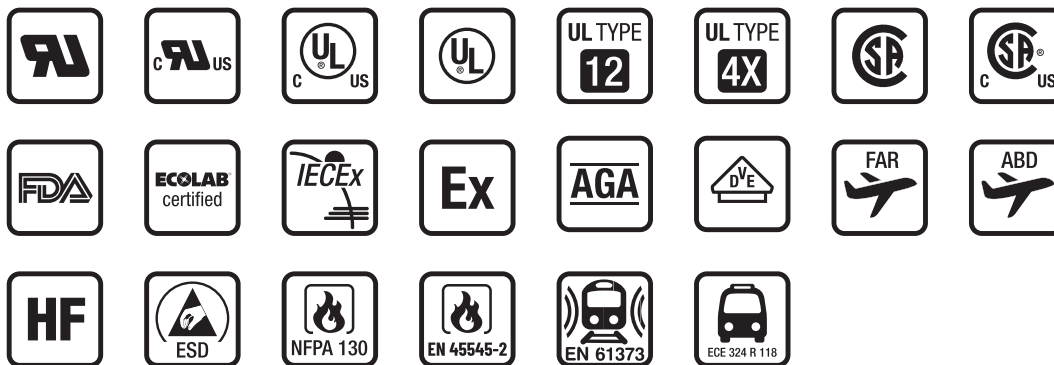

Product range

Labeling
Automation and Robotics
Cable entry systems and holders
Energy chains
Conduits and fittings

Industries

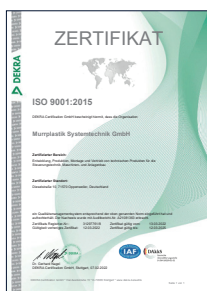

Mechanical and plant engineering
Switchgear engineering and cabinet construction
Automotive industry
Railroad and Rail Transport
Food Industry
Packaging Industry
Energy Industry
