Flange clamp

Product information

The flange clamps allow tension clamps R-SSR and precision pipes R-RG or R-RW to be connected with other components. Clamping on the entire pipe circumference.
The flange clamp R-FKD can be used to mount system holders with a swivel range of 360°. The position of the swivel range is adjustable. This prevents bending of the protection conduit.
With the flange clamp type R-FKE, the system holder is fixed rigidly.
For the flange clamps R-FKM, the base plate R-FKG or the swivel bearing R-DZM is additionally required for fixing a system holder.

Information, conformities and approvals

1) Adapter plate R-FKG is required for the installation of a system holder.

1) Adapter plate R-FKG is required for the installation of a system holder.

Material properties

Aluminium

Conformity

RoHS (EC Directive 2011/65/EU)

Flange clamp

Approvals and operating permits

ROBI approval

Classification

ETIM 9: EC000127
ECLASS 14: 23140107
