Material properties

Thermoplastic elastomer (TPE)

Thermal properties

Temperature / temperature range

-40 °C – 80 °C

Technical information

Halogen-free

Cable entry grommets Type KDT/X FDA

Technical information

According to ISO 4892-2

Conformity

RoHS (EC Directive 2011/65/EU)

Approvals and operating permits

FDA compliance

ECOLAB approval

Classification

ETIM 9: EC002624
ECLASS 14: 27182815

General information

Made in Germany

All details given in our sales brochures and catalogues, as well as the information available online, are based on our current knowledge of the products described.
The electronic data and files made available by Murrplastik, particularly CAD files are based on our current knowledge of the product described.
A legally binding assurance of certain properties or the suitability for a certain purpose can not be determined from this information.
All information with respect to the chemical and physical properties of Murrplastik products, as well as application advice given verbally, in writing or by tests, is given to the best of our knowledge.
They do not release the buyer from the obligation to carry out his own tests and trials in order to determine the concrete suitability of the products for the intended purpose.
